

# Suno.ai Prompt Writing Guide

## Why It Matters:

Using AI tools like Suno.ai can supercharge your creative process—but only if your prompts are clear, strategic, and tailored to your sound.

## Prompt Structure Basics:

Good prompts are specific and structured like a studio brief.

Example: 'Upbeat country-pop with acoustic guitar, claps, male vocals like Sam Hunt, topic: small-town pride, structure: verse/chorus/verse/chorus/bridge/chorus'

## Tips for Genre Mimicry:

- Mention instruments typical of the genre
- Reference popular artists with a similar sound
- Indicate emotion/mood (uplifting, heartbreak, anthemic, etc.)

## Input → Output Flow:

Think like a producer. The clearer the prompt, the closer the output will be to what you imagined.
